## AM4013MZTL

Marque:

Code produit: AM4013MZTL

#### **Courte description**

1.3 Megapixel resolution Robust metal housing Polarizer (anti-reflection) 10x ~ 90x magnification Long working distance

### **Description**

By using a special polarization filter, the AM4013MZTL is the right choice when working with high glare materials such as plastics and metals. This model features an aluminum alloy housing for enhanced protection and durability and the best look and feel. This model also has a long working distance.
