Aç?klama

The AM7515MT2A is a 5MP Dino-Lite Edge Series microscope that has a magnification range of $130x \sim 220x$ with built-in coaxial illumination. By using the Flexible LED Control (FLC), this model is capable of switching between or mixing, brightfield and coaxial illumination.

The coaxial illumination technique reveals details that are very difficult to see under normal light. The AM7515MT2A includes the Automatic Magnification Reading (AMR) feature which automatically detects and displays the magnification in the included Dino-Lite software.

These unique features make the Dino-Lite AM7515MT2A a great inspection tool for material analysis, electronics inspection, or any similar application that requires coaxial illumination, versatility and mobility. The Dino-Lite AM7515MT2A is bundled with the user-friendly DinoCapture 2.0 software for Windows.

For this model it includes functions such as:

- Automatic Magnification Reading (AMR)
- Flexible LED Control (FLC)
- Calibration
- Measurement
- Capturing & annotating images
- And recording video
